**Emily is a writer, a mother, and a woman who knows heartbreak.**

Still healing from her divorce, she's spent the past few years quietly rebuilding her life.

Lucas is a dedicated father and architect who's grown used to solitude after his own marriage ended. His love for his daughter, Lily, remains the anchor that keeps him steady.

When a dating app brings them together, sparks fly—but falling in love later in life comes with its own set of complications. Between careers, kids, and past pain, learning to blend their worlds takes more than chemistry.

Told through alternating perspectives—and love letters written but not always shared—*Emily's Next Chapter* is a tender story about second chances, the quiet work of rebuilding, and the unexpected joy of finding love when you least expect it.

For anyone who's ever wondered if it's too late to start over—this story is for you.

**Starting a career in copywriting is exciting, but it can also feel overwhelming without the right insights.** In *The Top 10 Mistakes I Made My First Year as a Copywriter*, you'll find honest lessons from my own journey, designed to help you avoid the same mistakes and find your success faster.

This book is for more than just copywriters. It covers topics like creating a professional website that represents your brand, pricing your services to reflect your value, and focusing on lead development to grow your client base. With real examples and actionable advice, you can take meaningful steps toward your goals.

Whether you're just getting started or looking for practical advice to refine your business, this book offers guidance for building a fulfilling and sustainable career in copywriting. Start your journey with the knowledge you need to grow with confidence.

**I'm an ordinary woman who has experienced ordinary trials and tribulations, not that much different than what you may have faced.** Miscarriage. Divorce. A child who nearly lost his life fighting a mysterious illness.

But, what perhaps sets me apart and makes my story a bit different is that I didn't take those experiences and let them end me. I took those experiences, learned how to heal and cope, and let them teach me how to be a better version of myself, for those I love. But most importantly? For me.

**And in writing for me, I hope that I can help you.**
